

FREE WEBINAR

Presented by the Mid-Atlantic Masonry Association

IMPORTANT CHANGES TO CONCRETE MASONRY DESIGN CODES AND STANDARDS

THURSDAY - OCTOBER 19, 2017

TIME: 11:00AM - NOON (Eastern Time)

LENGTH: One Hour

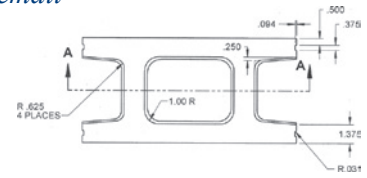

WHO SHOULD ATTEND:

Engineers, Architects, Building Code Officials, General Contractors, Masons, Masonry Instructors, MAMA Members

CREDITS: 1.0 AIA Continuing Education LU HSW for Architects, 1.0 Learning Unit for Engineers & 1.0 MCAA credit for Mason Contractors.

Certificates will be supplied via email after completion of the course.

COST: FREE

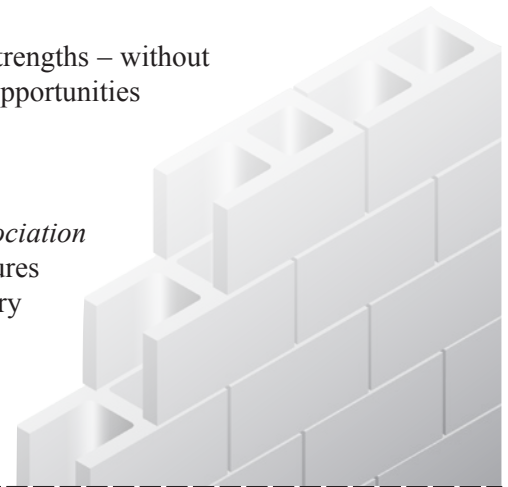

PROGRAM DESCRIPTION

GAME CHANGER - The net result was a baseline increase of about 33% on design strengths – without any changes to the materials or design methodology. The new changes, benefits, and opportunities with these new requirements will be reviewed.

PRESENTER

Jason Thompson, Vice President of Engineering ~ National Concrete Masonry Association

Jason is active in the development of building codes and standards for masonry structures and systems where he represents NCMA and the masonry industry through the Masonry Alliance for Codes and Standards.
