

FREE MASONRY WEBINAR

Presented by an Industry Expert & Sponsored by MAMA

ELEMASONRY

DESIGN SOFTWARE FOR MASONRY ELEMENTS

TUESDAY - NOVEMBER 9, 2021

TIME: 11:00AM - NOON (Eastern Time)

LENGTH: One Hour

WHO SHOULD ATTEND:

Engineers, Architects, Building Code Officials, General Contractors, Masons, Masonry Instructors, and Members

CREDITS: 1 AIA/CES LU HSW for Architects, 1.0 Learning Unit for Engineers, 0.1 ICC CEU, 1.0 MCAA credit for mason contractors.

Certificates will be supplied via email after completion of the course.

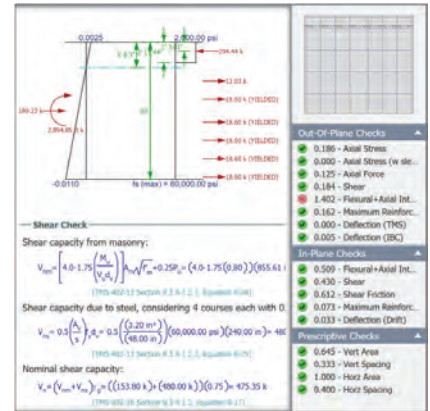

COST: FREE

PROGRAM DESCRIPTION:

EleMasonry is an innovative software package for designing of a variety of masonry building elements. The software can be used to develop code-compliant designs for walls, columns, beams, and pilasters. This seminar will review the features of this software, with focus on how the software can aid designers in completing design work quickly, efficiently, and in accordance with current building codes. Engineers, designers, code officials, and more will want to engage in this informational webinar.

- The EleMasonry design software and its application to masonry element design.
- How the software's detailed output provides a deeper understanding of the application of the design methodologies in TMS 402, Building Code Requirements for Masonry Structures.
- Ways in which the approach used in the software yields better design efficiency and handles a wider variety of wall configurations vs. other typical approaches.
- Reading and understanding the outputs of the software.

PRESENTER:

Jason Thompson - Vice President of Engineering, National Concrete Masonry Association

REGISTRATION FORM

TUES., NOV. 9, 2021 - MASONRY WEBINAR

Deadline for registration is Fri., Nov. 5, 2021

Name _____

Best Contact Phone _____ Email _____ AIA# _____

Company/Organization Name _____

Company Address _____

PLEASE INDICATE ONE OF THE FOLLOWING:

- Engineer
 Architect
 Building Code Official
 General Contractor
 Mason
 Masonry Instructor
 Member
 Other _____
